

Tot slot

VGR1: The Pale Blue Dot

- Foto genomen op 14 feb. 1990
 - Op verzoek van Carl Sagan
- Afstand: 40AU (bijna 6 miljard kilometer)
- Resolutie: 800 pixels per tv-lijn, 800 lijnen

Ik neem u graag nog even mee in een kort filosofisch moment...

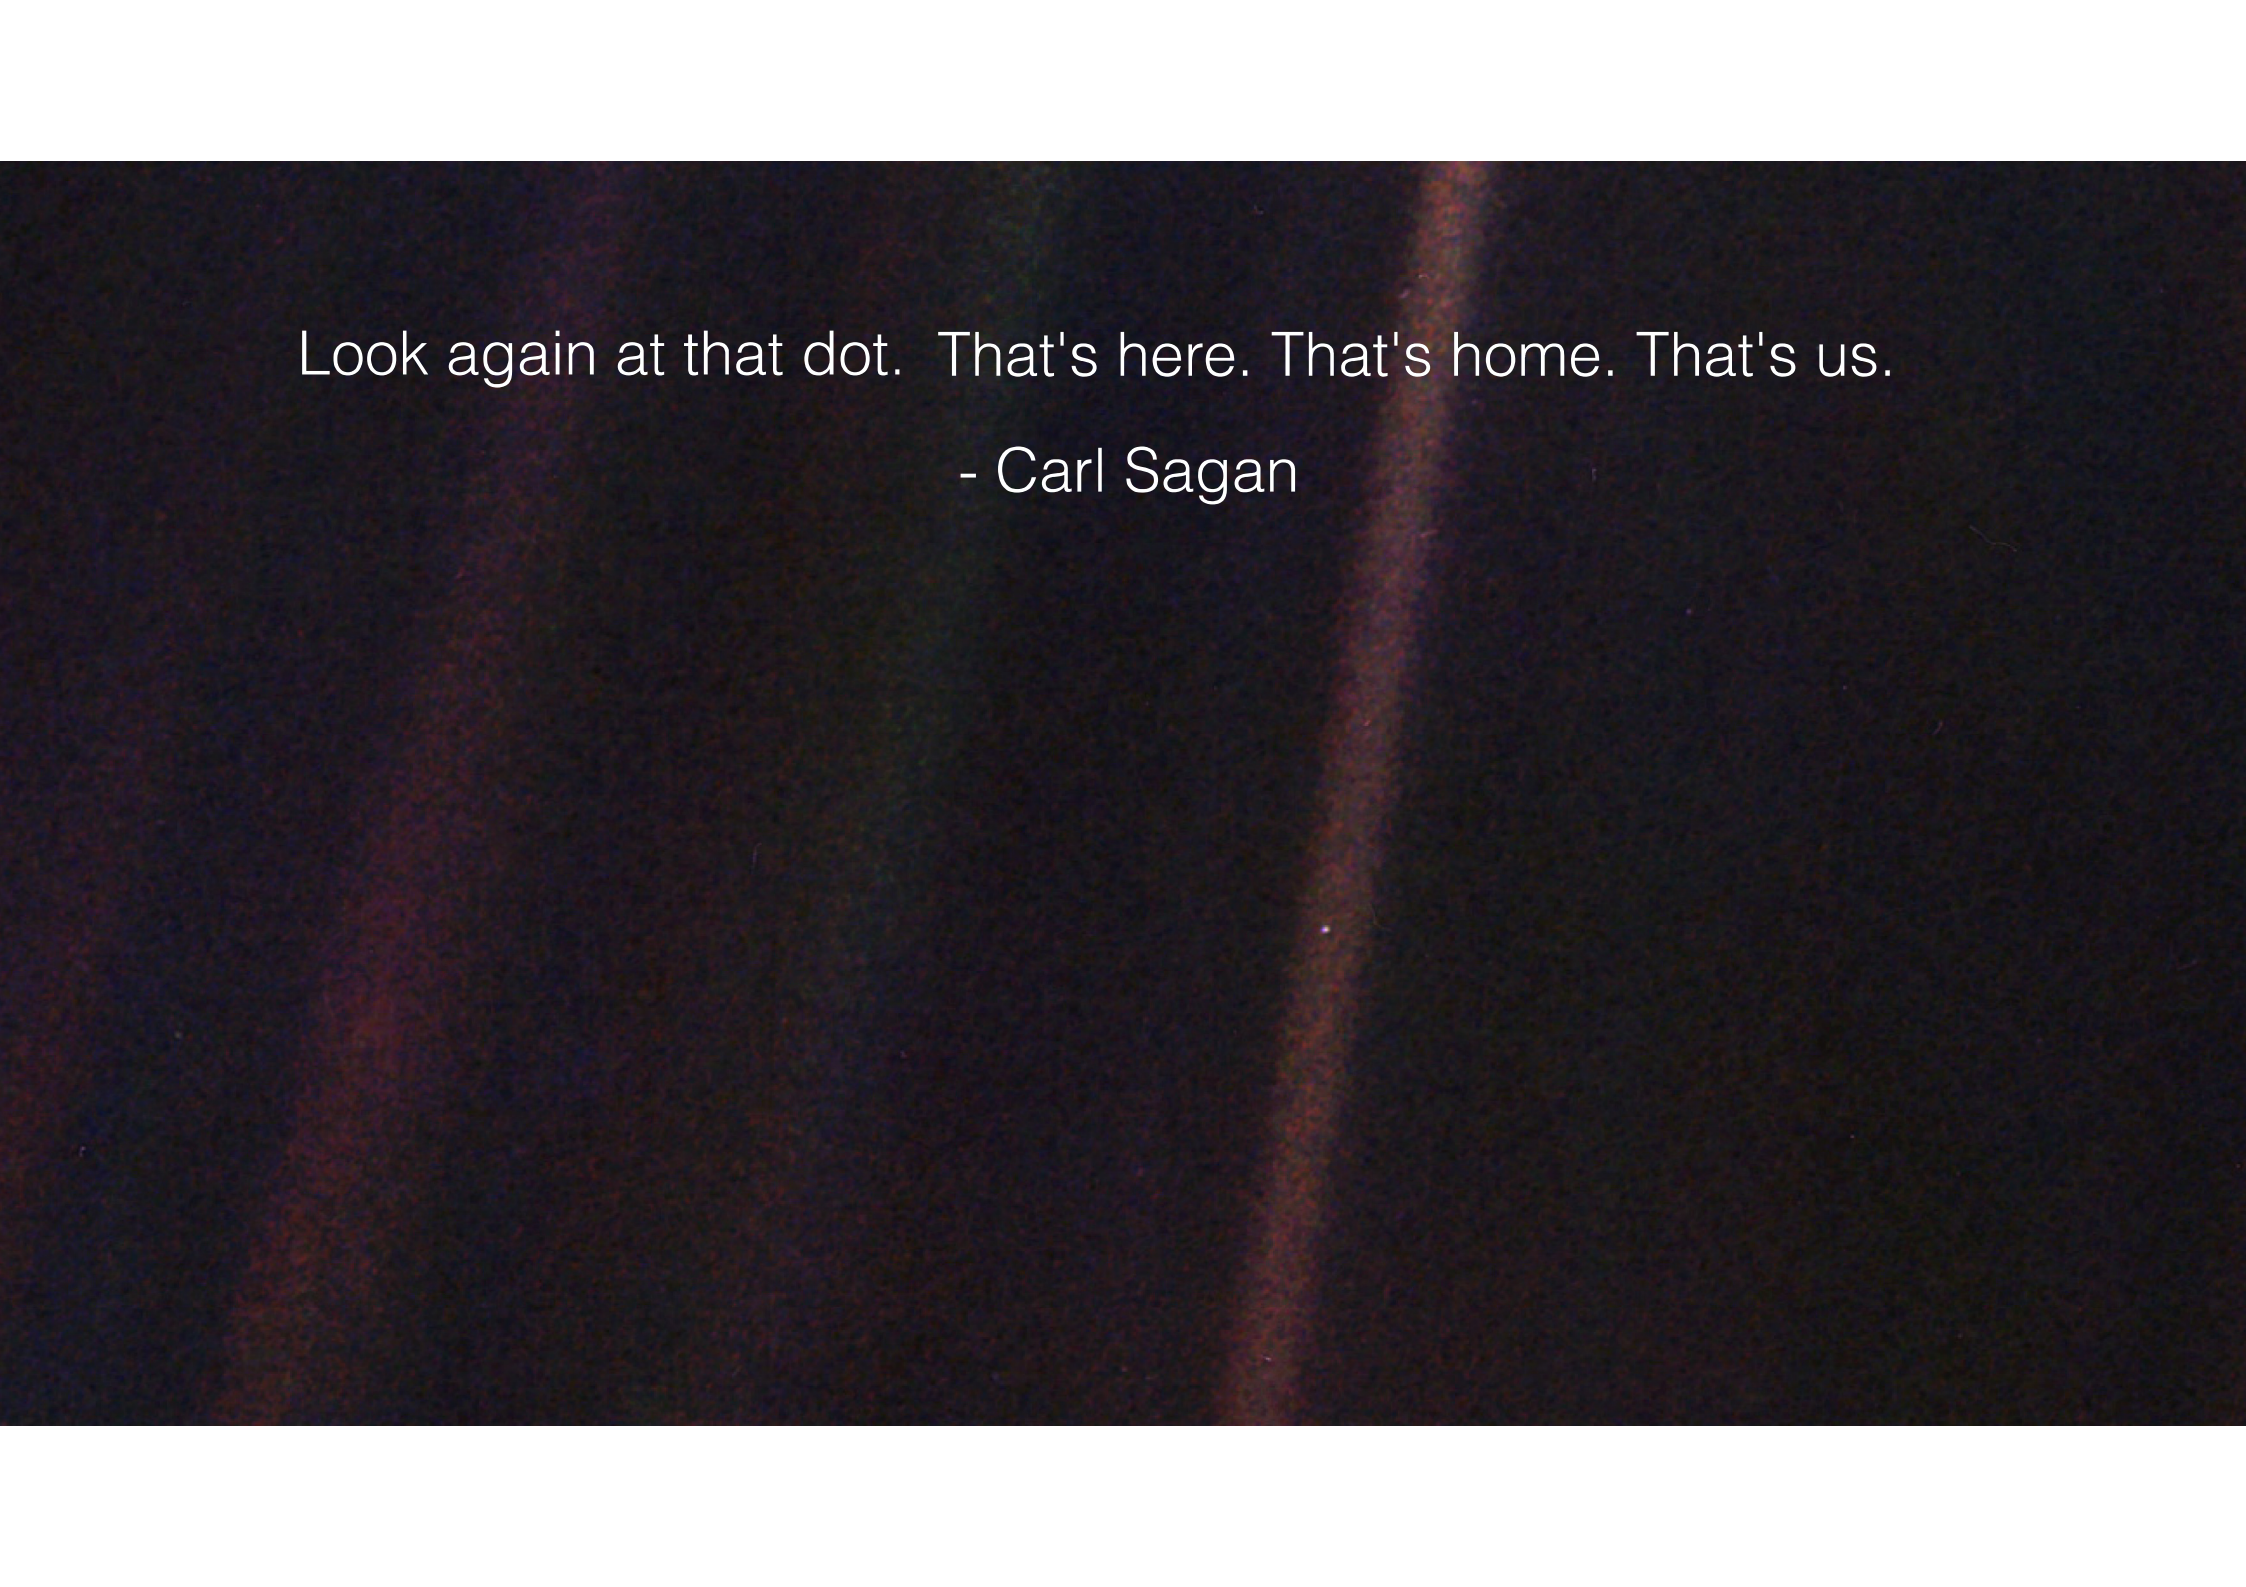

Look at that dot

On it everyone you love, everyone you know, everyone you ever heard of, every human being who ever was, lived out their lives....

A very small stage in a great cosmic arena.

...on a mote of dust suspended in a sunbeam.

A dark, grainy image of a star field, likely a deep-sky photograph. A prominent vertical streak of light, possibly a comet or a bright star, runs down the right side of the frame. The background is filled with numerous small, faint stars.

Look again at that dot. That's here. That's home. That's us.

- Carl Sagan

**Look up and be amazed!
Dank voor uw aandacht**
